

INTRA-UNIVERSITY TRANSFER (IUT) OR DOUBLE DEGREE (DD)

WELCOME

We welcome your interest in the School of Management (SOM). Because of the extremely competitive nature of internal transfer to the programs in SOM, we urge you to read this document carefully.

APPLICATION PROCESS

Requests for IUT or DD admission must be received by:

- November 15 for Spring admission
- March 15 for Fall admission

Best time to apply is during the fourth semester for the beginning of the junior year. Priority is given to candidates who are enrolled in the second semester of the sophomore year. Freshmen are rarely accepted into the double degree program or granted internal transfer.

Meet with the SOM Advisor to review criteria and preparation needed for admission.

Decision letters are sent to the student's current mailing address when school is in session and to the student's permanent address during vacations/breaks.

Students must notify the Office of Undergraduate Admissions in writing if they do not wish to accept the offer of admission.

Late applications will be considered on a space available basis. Admission decisions are made after current semester grades are available. Return your completed application form to the Office of Undergraduate Admissions, Academic Building A.

ADMISSION REQUIREMENTS

Transfer students who have completed only one semester at Binghamton at the time of the IUT application must have earned at least a 3.0 here for consideration. Consult with an SOM advisor about SOM courses you wish to take before your internal application is considered.

Access to SOM courses for non-SOM students is limited.

Recently, most admitted students had at least 57 credits with a 3.3 GPA or higher, but there is no GPA cutoff for admission or denial. Any written statements about your circumstances will be reviewed carefully.

Credits earned through Advanced Placement Program courses, international Baccalaureate Higher Level exams (grad of 4 or higher), and all external college courses, including Project Advance (SUPA) or similar courses, completed with a 'C' or better, will define your class standing (e.g. freshman, sophomore, junior, senior).

PRE-REQUISITE COURSES

You are required to have completed microeconomics, macroeconomics, and either calculus or statistics by the end of the semester in which you submit your application. Grades of A or B are necessary in each of those courses. Additional courses can be selected which are similar to those required of all SOM majors. Computer skills are essential and students without strong skills should take an intro to computing course with a focus on Excel early.

ACADEMIC QUESTIONS?

Before completing the application, we encourage you to direct your questions concerning course selection, transfer credit or other academic issues to:
