*Starting Fall 2009, Biology majors at Binghamton are required to take a statistics course that was created for biology students.				
In the meantime, we are modifying some upper level biology courses to build on this specific statistics foundation.				
To allow for a transition, we will allow biology majors to transfer a general statistics course to be equivalent to Math 148 until Fall 2012.				
<b>Disclaimer: This transfer equivalency guide outlines a plan of study that allows for efficient completion of the bachelor's degree. Admission to Binghamton University is competitive and satisfactory completion of equivalent courses or an associate's degree is not a guarantee of admission.</b>
